EDUCATION

ABES Engineering College, Ghaziabad

2023 – 2027

Bachelor of Technology in Computer Science & Engineering — CGPA: 8.55

SBGs Global School, Phulparas, B.R.

2018 – 2021

Secondary (2018 – 2019) & Senior Secondary (2020 – 2021)

SKILLS

Languages: C, C++, Python

Mathematical Foundations: Linear Algebra, Probability & Statistics, Calculus (coursework)

Machine Learning & AI: Machine Learning, NLP, Generative AI, Gemini AI API, EDA, Scikit-learn

Data & Analysis: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel

Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Frontend: HTML, CSS, JavaScript, React.js

Databases: MongoDB, MongoDB Atlas, MySQL, SQLite, SQL

Developer & Cloud Tools: Git, GitHub, VS Code, Postman, Kaggle, Vercel

Core CS Concepts: Data Structures & Algorithms (DSA), OOPs, Operating Systems, DBMS

PROJECTS

AI Exam Notes Generator | *React.js, Node.js, Express.js, MongoDB, JWT, Gemini AI API*

- Built and launched an AI-powered EdTech SaaS platform integrated with the Gemini AI API to auto-generate exam-focused notes, summaries, and visual study materials, reducing student content-prep time by ~60%.
- Architected a credit-based monetization engine with Stripe, implementing 3 pricing tiers, webhook-driven real-time credit ledger, and PCI-compliant transaction flow to support paid subscriptions from launch.
- Engineered a stateless JWT authentication system and RESTful API layer across 15+ endpoints, enforcing role-based access control and secure session management for multi-tier user access at scale.
- Delivered personalized learning features (subject/class-filtered AI content generation, spaced-repetition revision mode, auto-rendered diagrams), cutting average study-session prep from 45 min to under 10 min per topic.

QR Attendance Management System | *Python (Django), HTML, CSS, JavaScript, SQLite*

- Architected and deployed a full-stack QR code attendance system, eliminating manual attendance tracking for 500+ students across multiple classrooms.
- Engineered real-time QR code scanning with Django ORM database integration, reducing attendance recording time by ~70% and cutting manual entry errors to near zero.
- Integrated automated SMTP email notifications triggered on each attendance event, delivering real-time absence alerts to parents and students within seconds of each class session.
- Built a role-based admin dashboard with real-time attendance analytics and exportable CSV/PDF reports, reducing administrative workload by an estimated 3+ hours per week.

CERTIFICATES & ACHIEVEMENTS

- LeetCode: Max rating 1532
- CodeChef: 1★, Max Rating 1280
- Solved 250+ Data Structures & Algorithms problems across LeetCode and CodeChef
- Top 20 / 100+ teams — Smart India Hackathon (Internal Round)
