Education

ABES Engineering College

Bachelor of Technology in Computer Science & Engineering-CGPA:8.55

Ghaziabad

2023 - 2027

SBGS Global School

Senior Secondary

Phulparas,B.R.

2020 – 2021

SBGS Global School

Secondary

Phulparas,B.R.

2018 – 2019

Skills

Languages: C, C++, Python

Frontend: HTML, CSS, JavaScript, React.js

Backend: Fast API, Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, MySQL

Data Science & AI: Machine Learning, NLP, Generative AI, EDA, Data Cleaning, Data Visualization

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Visualization Tools: Power BI, Excel

Developer Tools: VS Code, Git, GitHub, Kaggle, Vercel, Postman

Core Concept: Data Structures & Algorithms (DSA), OOPs, Operating System, DBMS

Projects

QR Attendance Management System | HTML, CSS, JavaScript, SQLite, Python

- Designed and developed a QR Code-based Attendance Management System using Python (Django), HTML, CSS, JavaScript, and SQLite to automate attendance tracking.
- Implemented real-time QR code scanning and database integration, improving accuracy and reducing manual attendance errors.
- Implemented **QR code scanning and automated notifications (Email/SMTP)** to provide instant attendance updates to students and parents.
- Created an interactive admin dashboard for attendance monitoring, report generation, and data management.

AI Exam Notes Generator | React.js, MongoDB, JWT, Gemini AI, Node.js, Express.js

- Developed and deployed a full-stack AI-powered SaaS application using **React.js, Node.js, Express.js, and MongoDB**, enabling automated generation of exam-focused notes, summaries, and visual learning materials through **Gemini AI API integration**.
- Architected a **credit-based usage and monetization system** with **Stripe payment integration**, supporting pricing tiers, secure transactions, and real-time user credit tracking across the platform.
- Designed and implemented **secure authentication and scalable backend architecture** using **JWT and RESTful APIs**, ensuring data protection, session management, and seamless communication between frontend and backend services.
- Built advanced learning features such as **subject-wise and class-wise content generation, revision mode, and AI-generated diagrams/charts**, improving user study efficiency and enabling personalized learning experiences at scale.

Certificates & Achievements

- LeetCode:** Max rating 1532
- CodeChef:** 1* & Max Rating 1280
- Solved **250+ DSA problems** across LeetCode, and CodeChef
- Top 20 / 100+ teams – Smart India Hackathon (Internal Round)**
